Madrid, Spain.

Dear Sir,

As the author of a paper entitled 'On the present state of the Piaget Collection of Mallophaga in the British Museum', kindly forwarded to you for publication in Eos by Professor S. Maulik in June 1933 and of which no word has been heard, I am extremely anxious to hear whether my paper arrived safely and when it is likely to be published.

It is now so long since it was sent to you by registered post that I am feeling worried about it.

I shall be most grateful to you for any information regarding this matter.

Yours faithfully,

Gordon B. Thompson.
